Foundations

Color, type, spacing and radius tokens for the Stud Book web app. Names map straight to Flutter: colors to `ColorScheme` roles plus a `StatusColors` theme extension, type to `TextTheme` roles.

§1 Color

`ThemeData.colorScheme`

Strong fills carry white text, tints carry their dark pair; every pair is 6:1 or better. Status is never color alone: each badge also has a label and an icon, and Blocked is a solid fill so it differs from Allowed in lightness, not just hue.

§2 Typography

`ThemeData.textTheme · google_fonts`

§3 Spacing, radius, lines

AppSpacing · AppRadius

Spacing — 4 px base

s4	icon to label
s8	inside chips, badges
s12	label to field, button groups
s16	field padding, table cells, phone gutter
s24	card padding, form rows
s32	desktop content gutter
s48	between page sections
s64	page top on desktop

Min touch target 44 × 44. Breakpoints: compact < 600, medium 600–1023, expanded ≥ 1024.

Radius

r4 · tags | r6 · fields, buttons | r8 · cards | r12 · dialogs | full · badges

Lines & elevation

Hairline 1 px, outlineVariant — table rows, cards

Field 1 px, outline — inputs, outlined buttons

Ledger rule 3 px double, onSurface — page headers only

Focus ring 2 px primary, 2 px offset

Level 1 shadow — menus, popovers. Everything else is flat.

Components

Buttons, fields, controls, status badges, banners, data rows and navigation. Each block names the Flutter widget it maps to, so the theme goes into `ThemeData` once and screens stay plain Material.
